Possession Limit: 10 fish total

More about WALLEYE LIMITS

Q: If I catch my limit in the morning, can I eat some for lunch and fish again the same day?

A: No, the 6-fish limit is daily and possession, meaning you would be OVER your limit if you ate part of your limit at lunch, then caught or kept more walleyes in the afternoon.

Q: If I have my 6-fish limit in the boat, can I keep fishing while practicing catch and release?

A: No, if you have your limit in the livewell and land another walleye, that walleye would put you over the daily and possession limit.

Q: If I have a limit of 6 fish in the freezer to bring home, can I keep fishing for walleye?

A: No, the 6 fish in your freezer is your daily and possession limit, therefore you cannot keep fishing for walleye.
